Car list

Approved cars for iZi Sleep ISOfix, provided the car is equipped with ISOfix

The iZi Sleep ISOfix is a semi-universal ISOFIX CHILD RESTRAINT SYSTEM. It is approved to regulation No. 44-04 series of amendments for general use in vehicles fitted with ISOFIX anchorage systems.

It will fit vehicles with positions approved as ISOFIX positions (as detailed in the vehicle handbook), depending on category of the child seat and of the fixture. The mass group and the ISOFIX size class for which this device is intended is: E.

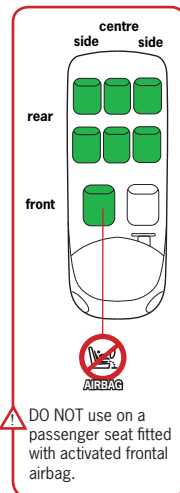

The iZi Sleep ISOfix is suitable for fixing into the seat positions of the cars listed below, providing approved ISOfix points are fitted and available.

Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that combination of car and iZiSleep ISOfix. If in doubt, consult either HTS BeSafe or the retailer. For updated carlist see: www.besafe.eu

Notice:

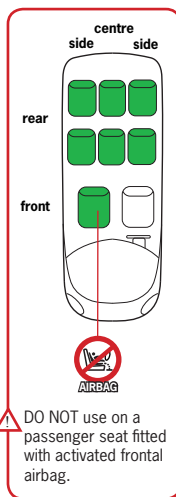

DO NOT use on a passenger seat fitted with activated frontal airbag.
